18 March 1960

CENTRAL INTELLIGENCE AGENCY

CENTRAL REFERENCE ADVISORY GROUP

Logging Requirements for Classified Material Disseminated by OCR

REFERENCE: CRAG 10-59, dated 9 July 1959; Logging of Classified Intelligence Information Reports

1. The CRAG Working Group on the above subject recommends (Enclosure 1) that CIA Regulation  be revised to except from the Office and Area Division logging requirements all OCR disseminated material classified SECRET or CONFIDENTIAL. 25X1

2. The Director of Security has approved this recommendation (Enclosure 2) with the proviso that individual accountability will continue for specific categories of documents covered by regulations or directives not based on E.O. 10501; e.g., registered documents and "S/S" cables.

3. In my opinion you may now discontinue the logging records in your organization of material received from OCR, except as stated, using the Security Office memorandum as authority.

4. I am forwarding copies of this memorandum and attachments to DD/I, DD/S, and DD/P for information

PAUL A. BOREL  
Assistant Director  
Central Reference 25X1

Enclosures (2)  
As stated above.
